Soy Dream Original un-enriched

Please note the following points:

> Many of the products contain kitniyot, some as the primary ingredient.

> Some of the products may contain minor ingredients that are possibly, though unlikely, produced from chametz-based raw materials. All such ingredients are used at a less than 1:60 ratio.

> Liquid versions of these products are preferable to their powdered counterparts.

> Products that contain flavors should only be provided when no unflavored alternative exists.

> Products should be purchased before Passover and be maintained segregated from kosher for Passover foods.

> Materna brand infant formula from Israel, under the Passover certification of the BaDatz is available in some markets in the USA. Consult your doctor before changing infant formula.
